How to read this

H / A	Home and away win probability. Basketball has no draws, so the two fill the bar.
projected	Projected points, home–away.
total	Projected combined points.
spread	Projected margin, quoted on the favourite.
over 70%	The total that is 70% likely to be beaten — the line, not the odds.
gap	Net rating difference: points scored minus allowed, per game, between the sides.
W L	Last five results, most recent first, with points for and against across them.
dots	How much rests on these teams' own results: three dots = 5+ games each, none = league baseline.

Not in this report

Player props and injury status are absent, and the strength gap above is a team measure, not a roster one.

The feed carries team scores and quarter splits only. Its per-match endpoint returns quarter lines and nothing at player level, and the WNBA's own stats endpoints time out from a datacenter host. Props need a keyed feed.
