How to read this

H / A Home and away win probability. Basketball has no draws, so the two fill the bar.

projected Projected points, home-away.

total Projected combined points.

spread Projected margin, quoted on the favourite.

over 70% The total that is 70% likely to be beaten — the line, not the odds.

gap Net rating difference: points scored minus allowed, per game, between the sides.

W L Last five results, most recent first, with points for and against across them.

dots How much rests on these teams' own results: three dots = 5+ games each, none = league baseline.

Not in this report

Player props and injury status are absent, and the strength gap above is a team measure, not a roster one.

The feed carries team scores and quarter splits only. Its per-match endpoint returns quarter lines and nothing at player level, and the WNBA's own stats endpoints time out from a datacenter host. Props need a keyed feed.
