How to read this

- H / A
- Home and away win probability. Basketball has no draws, so the two fill the bar.
- projected
- Projected points, home–away.
- total
- Projected combined points.
- spread
- Projected margin, quoted on the favourite.
- over 70%
- The total that is 70% likely to be beaten — the line, not the odds.
- gap
- Net rating difference: points scored minus allowed, per game, between the sides.
- W L
- Last five results, most recent first, with points for and against across them.
- dots
- How much rests on these teams' own results: three dots = 5+ games each, none = league baseline.

Not in this report

Player props and injury status are absent, and the strength gap above is a team measure, not a roster one.

The feed carries team scores and quarter splits only. Its per-match endpoint returns quarter lines and nothing at player level, and the WNBA's own stats endpoints time out from a datacenter host. Props need a keyed feed.
