How to read this

- H / AHome and away win probability. Basketball has no draws, so the two fill the bar.
- projectedProjected points, home-away.
- totalProjected combined points.
- spreadProjected margin, quoted on the favourite.
- over 70%The total that is 70% likely to be beaten — the line, not the odds.
- gapNet rating difference: points scored minus allowed, per game, between the sides.
- W LLast five results, most recent first, with points for and against across them.
- dotsHow much rests on these teams' own results: three dots = 5+ games each, none = league baseline.

Not in this report

Player props and injury status are absent, and the strength gap above is a team measure, not a roster one.

The feed carries team scores and quarter splits only. Its per-match endpoint returns quarter lines and nothing at player level, and the WNBA's own stats endpoints time out from a datacenter host. Props need a keyed feed.
